American Patriots be prepared.

Events will unfold quickly over next several days.

Listen only to President Trump. Biden is NOT our leader & never will be. He & his cronies are Communist compromised.

CCP attacked our country with a biological weapon. CCP attacked us again to steal election.

CCP wants our land to grow food.

We shall NEVER let them take it.

Speak truth. Be fearless. Pray.

shills lefties trannies and downies have all banded together to form a collection sphere of drugged up hormonal ridden retards who actually believe that Trump didn't win
well Trump already won, and he's about to make it very clear coming up shortly

>THERE'S A REASON TRUMP ISN'T WORRIED
>there's a reason powell, flynn, lin wood, etc all are calm and collected
>THE MOST IMPORTANT SPEECH TRUMP EVER MADE DEC 2nd (unironically)
>called for a full forensic audit
>lays out that he has a sworn oath to defend the United States Constitution against the wartime “siege” that’s under way
>then explains that the vote was criminally rigged with “fraud” (which is a crime) and that it’s now time to overturn the election results and correct them
>Under existing U.S. law, it’s a felony crime to try to rig votes. Under military law during a time of war, it’s treason (TREASON)
>under the 2018 13848 E.O each of the entities engaging in this behavior will have all their assets seized by the US Treasury
>Trump was planning the 2020 election sting cyber warfare “trap” in 2018
>the rigging in 2018 was tied to adam schiff needing the house to launch the phony impeachment scam
>Trump was able to prevent the House from reading NSPM #13 (dealing with CYBER OPERATIONS) for 17 months
>[USC02] 10 USC 394 gives Trump military authorities to perform clandestine military operations in cyberspace
>Trump put the cyber warfare infrastructure in place in 2018 that would allow them to unleash a domestic military response to arrest, detain and prosecute all those who were complicit in the attack on America

>The patriots, in other words, really are in charge and they planned it all since 2018, putting in place the framework to trigger the appropriate national security resources once the Democrats took the bait and tried to steal the 2020 election
>and note the 2018 EO applies to corporations, individuals, partnerships and even non-profits NGOs
>the report is due 45d after election

That certiorari grant might have been the eye of the needle however which was why Texas went all in knowing that they would fall to Article III.

I may be wrong but doesn't the EO say in section 1 (a) that they have 45 days to submit findings? Then 1 (b) says another 45 days until a report is generated?

Not saying that it couldn't happen sooner, or that it all hasn't already occurred. Just saying the EO doesn't say that the first 45 days is the end of it.

Nothing happens. The thing to understand about Americans is that they are cowards. Fat, lazy, low-IQ and mixed-race, they are the perfect slave race. They are obedient to whoever is in office, it could be Biden, it could be fucking Stalin. They will obey no matter what. The government tells them "take the vaccine and turn in your firearms immediately", and they'll do it, without question. Americans are sedated with porn, video games, cartoons, and junk food. Now, if you took all those away... maybe something

would happen... but that's only a 1% chance there.

The military can act when the first report is filed. So Dec 18 at the latest. Not that they have to act by then, but the report giving them the authority to act is due then.

EO says no later than 45 days. So Dec 18 is the last day for the report. It can be submitted earlier. And perhaps it already has been submitted, who knows. But the 18th is the last day. If nothing happens on the 18, then we can start dooming

No the assessment is due then. The report has an additional 45 days. Not trying to split hairs here, but saying the 18th is the deadline will only lead to shills acting retarded if it isn't in by then. When the EO clearly allows more time.

i wish anon but it's never a glorious fight for the state
it'll be a coldwar at best
they have the means for a media blitz to paint trump a dictator
the question is will he purge thw owners or simmply lynch the avergae goons
the rot isn't simply surface level now is it?
i wonder if he'll simply concentrate on international affairs or be come a martyr and cross the rubicon
and if he does then a hitler-tier hoaxing spree from the media is in-evitable
we're at a historical cross-roads here
where'll he steer your nation towards realistically
he's already started peace talks and started pulling out of conflict zones
he's installed loyalists in the place of power
his victory is inevitable
the question is does he do it the cucked legal way or the based rubicon crossing way
and what'll be the worl'd response
will the ((canadians))) sit it out?
will the (((EU)))) cuck out?
what will the consequences be?

Dec 18 report allows military to take action.
45 days later civilian authorities will have another report and then they will do nothing, as usual.
This extra 45 days gives Trump an excuse to stand back and do nothing, so that he can't be accused of taking over as a dictator. The military will be doing the dirty work.

HERE IS THE LYRICS SO WE CAN ALL SING ALONG TO !!!!

It was back in 1849,
At the Springfield Golden Nugget Mine,

That my great-grandma Dolores saved the day,
When she propped the shaft and saved the lives,
Of the other forty other Springfield wives,
When all ma grandpa's buddies ran away

The menfolk found their women scary,
Cos they were so big and hairy,
They thought of dynamite to seal them in

Gramps was known as 'Chapped Lips Calhoun',
He was in the local saloon,
In came Billy-Joe Walton through the door,
He said "They're blown the Golden Nugget!"
My grandaddy said "Oh f….darn it!"
"You've buried my Dolores, my sweet little golden 'ore"

Swing it, son

Now my grandaddy jumped up from his table,
Finished his jug,
And he got up to that mine just as lickety-darn-split as he could,
Stopped off to fetch a shovel,
Feed the dogs,
Brush his teeth,
Clean the John and give his hoss one final rubdown

Cos a cowboy's life ain't easy and a cowboy's life is hard,
You can take him from the saddle,
But he'll be forever scarred

Cos my grandpa was a man in love,
Called Dolores his 'prairie dove',
And he told her that he loved her with every sigh

Cos she never once forgave him,
Even underneath the cave-in,
But he knew she would forgive him,
In that goldmine in the sky

Goldmine in the sky

orange man monster has super powers - the details are unbeknownst even to the most senior of congressional representatives. These powers are called P.E.A.T.S. to be used under conditions of national emergencies to suspend the various articles of the constitution (i.e., habeas corpus, elections, etc.) they will be executed by the president in response to the clear election interference from multiple foreign parties including but not limited to the following: China, Iran, and Venezuela. The Pentagon's internal intelligence agency called D.I.A. will shortly confirm foreign interference took place in the election allowing for the Trump Administration to execute powers with the full blown backing of the American military might -- SpecOps ///

One thing I will say about this EO, and I've probably read it 50 times, is that it gives the military carte blanche to fuck up and completely destroy anyone who has ever had anything to do with US election interference, even if they did it inadvertently.

The fact that it's been in place for two years, and was a declaration of a state of emergency should actually have certain people shiddying and fardding.

Well poo you aren't reading the EO. He doesn't have to "cross the Rubicon" he's already set in place a legal way to fuck the traitors. This EO, if enforced, will fuck them all. I'm starting to believe the "cross the Rubicon" shit is a just a shill tactict to make him look like a dictator.

He set a trap years ago, no one noticed or cared, and then they all ran full throttle in to it.

>Your farms will go bankrupt and get bought up by banks and agriculture companies if we don't.
False. If the country breaks up the price of food will sky rocket across America blue or red. The farmers will be making bank off these profits like they always do during war. War is good for business.
>Your independent, agrarian vision for a peaceful life away from niggers? The CCP pays for it.
No thanks to you fags electing corrupt niggers and Jews not to mention covid.

Food is grown in more places than you think, it's just smaller farms that grow healthier stuff than massive monocropping onions corn and wheat growers. I've been buying local fish, vegetables, fruit and grains all year and it's almost certainly been more healthy than shitty cheeseburgers and fries from the midwest. The closest farms to me all hate Trump. There's a CSA nearby ran by two lesbians. Most others who grow on small farms are similarly liberal. We're better off without red states.

They work lower income jobs. Farmers are not a burden but they also require MASSIVE subsidies to run every year. Look up why farmers are killing themselves every year, society doesn't value them enough. Capitalism fucks people over.
>they won't carry their own weight is what i claim
You're wrong. Software engineers coming from your country and earning triple figures writing code that gets children addicted to social media and phone games is the burden.

We had four years of Executive control and how many arrests? How many? I want to believe we have some option other than eating the bugs and living in the pod but I see no evidence that this is possible. Everyone who was poised to stand for the regular man....every one has cucked, And the common man, who had his business shut down by tyrants. The common man, who had his church doors locked by tyrants, while BLM gathered in the streets - celebrated and encouraged. Normal American boys - where are we? What will we do? Looks like nothing...it's head down and goodnight for America. Nobody actually loved you. We all just said we did to bolster our own characters. Goodnight all.

Right now the USA is producing more food than it needs and it's helping fuel obesity. Corn, wheat, potatoes, onions are NOT as nutritionally dense as the range of vegetables a typical smaller farm grows. At the same time, those huge farms are being massively inefficient because they require food to be stored and transported huge distances, possibly refrigerated. Smaller farms are more likely to contribute to healthy soil through no till and organic farming. In some parts of the country, huge farms are destroying soil at unprecedented rates. Maybe ONLY small farms wouldn't work, but we definitely need way more.
